## PATENT

**Title: Paradise Platform** for rural artist booking, equipment rental, and craft marketplace.

**Patent Number:** 202441075615

## TECHNICAL SKILLS

- Android App development
- SpringBoot
- React js
- Firebase
- DSA

## ACHIEVEMENTS

Developed "**PARADISE** -App name," an e-commerce platform tailored for rural merchants, incorporating traditional artisans and agricultural products.

- I received the "**Best Software Award**" at the XTARD hackathon, a 24-hour challenge organized by SaiRam Engineering College.
- **Winner Of BOOTSTRAP** hackathon, A National Level Hackathon, SIMATS.

**First Place in Project Presentation,** Developed an app named "**MICROBIZ**" for MSME business owners, which served as an earlier version of the PARADISE app.

## PROGRAMMING SKILLS

- Java
- C
- HTML, CSS,JS
- sql

## EDUCATION

**B.E-** Computer Science Engineering,  
Sri Sairam Engineering College,  
Chennai.

**CGPA-7.53** ( Upto VI Sem)

**HSC-**Cambridge Matric Higher  
Secondary School, Krishnagiri.

**Aggregate Score-** 86.3%

**SSLC-**Cambridge Matric Higher  
Secondary School, Krishnagiri.

**Aggregate Score-** 87.8%

## CERTIFICATIONS

**PGDCTT-** Post Graduate Diploma in  
computer Teacher Training.

**APP DEVELOPMENT,** Revamp Academy

**PROGRAMMING IN JAVA,** nptel.

## PROJECTS

### PARADISE APP

- Developed "PARADISE", an e-commerce app for rural merchants.
- Implemented backend functionality using **Java** and designed the frontend with **XML**.
- Used **Firebase** for efficient data management and real-time database interactions.

### BBANKING APPLICATION

- Developed using **springboot**, **springdatajpa** and **mysql** for database useage.
- For controller which returns view technology, i used a jsp and for **rest controller react** is used

### PLANVR APP

- Developed the **PLANVR** app, providing immersive VR experiences for house construction projects.
- Employed **Java** for backend development and **XML** for frontend design.
- Implemented Firebase for streamlined data management and utilized **VR Google SDK** to integrate VR files.

### LearnX APP

- Developed LearnX app, an educational platform, using **Flutter framework** and **Android Studio** for UI/UX, **Dart** for coding, and Firebase for data management.
